Radio and television broadcasts shall comply with the following rules:

General standards

1. 3. In the acceptance of advertisements and teleshopping there shall be no unreasonable discrimination either against or in favour of any particular advertiser.

Forms and presentation

4. Advertising and teleshopping shall be readily recognisable and distinguishable from editorial content. Sponsorship of news and current affairs programmes on radio shall be prohibited.

5. Without prejudice to the use of new advertising techniques, television advertising and teleshopping shall be kept quite distinct from other parts of the programme by optical and, or acoustic and/or spatial means.

6. Isolated advertising and teleshopping spots, other than in transmissions of sports events, shall remain the exception.

7. Successive advertisements and teleshopping shall be recognisably separate in particular techniques such as those described in article 19 of this Act.

8. Advertisements and teleshopping shall not be arranged or presented in such a way that any separate advertisement appears to be part of a continuous feature.

9. Audible matter in advertisements and teleshopping shall not be excessively noisy or strident.

#### Insertion of advertisements and teleshopping

10. Advertising and teleshopping shall be inserted between programmes:

Provided the conditions contained in paragraph 11 are fulfilled, advertising and teleshopping may also be inserted during programmes in such a way that the integrity and value of the programme, taking into account natural breaks in, and the duration and nature of the programme, and the rights of the rights holders, are not prejudiced.

11. The transmission of films made for television (excluding series, serials and documentaries), cinematographic works and news programmes may be interrupted by television advertising and, or teleshopping once for each scheduled period of at least thirty minutes. The transmission of children's programmes may be interrupted by television advertising and, or teleshopping once for each scheduled period of at least 30 minutes, provided that the scheduled duration of the programme is greater than 30 minutes. No television advertising or teleshopping shall be inserted during religious services.

#### Advertising and teleshopping of particular products

12. Teleshopping for medicinal products and teleshopping for medical treatment, shall be prohibited.

13. Advertising and teleshopping for all other medicines and medical treatment shall be clearly distinguishable as such, honest, truthful and subject to verification, and shall comply with the requirements of protection of the individual from harm.

- (f) it shall not place emphasis on high alcoholic content as being a positive quality of the beverages.

---

Duration

15. The proportion of advertising spots and teleshopping spots within a given clock hour shall not exceed 20%.

16. Paragraph 15 shall not apply to announcements made by the broadcaster in connection with its own programmes and ancillary products directly derived from those programmes, sponsorship announcements and product placements.

17. The amount of time given to advertising on radio services shall not exceed twenty-five per centum within one hour period, provided that part of such advertising time may be aggregated to a continuous period not exceeding two hours in each twelve hour period. For the purposes of this Schedule, a twelve hour period shall be understood to mean between 06.00 and 17.59 hours and between 18.00 and 05.59 hours.

Exemptions

18. Paragraphs 10, 11 and 15 shall not apply to radio services.

Teleshopping for both non-Teleshopping Television Stations and for Television Stations exclusively licensed for teleshopping

19. Teleshopping offers of any kind shall contain the direct offer for sale to the public within the teleshopping transmission itself. Where the offer for sale is only contained elsewhere (such as in a teletext service) the material may not be classed as teleshopping.

20. "Direct offer" means the form of advertising for the supply of any product or service offering detailed explanations and promotion of advantages. A teleshopping offer may solicit the purchase, sale or lease of products or services through contact with the commercial distributors or service provider either by telephone or by any electronic means.

21. Teleshopping shall not use the same scenography of other non-advertising programmes and shall not be presented by anchormen/women engaged in television news or current affairs features.

22. The use of encoded messages shall be forbidden during a teleshopping offer.

23. The price of the product or service offered shall be provided during a teleshopping offer and the address from where business is conducted shall not be broadcast either orally or graphically:

Provided that in the case of a distance contract concluded following a direct offer made through a teleshopping window, it shall be the duty of the broadcaster to provide the address of the trader only in cases of contracts requiring payment in advance.

24. The station which broadcasts a teleshopping window shall keep a record of the identity and the address of the trader who sells a product or a service during a teleshopping window, should a viewer who has purchased a product or service request such information.

25. During a teleshopping offer it shall be permissible:

- (a) to inform the viewer that the advertised product or service will be sent to the address of the person who responds to the teleshopping offer;
- (b) to describe the advertised product or service which will be provided and to announce its functions and its price.

26. All forms of teleshopping and competitions shall not be permitted during a

teleshopping offer.

27. A direct offer is always bound with the possibility of direct response, identified by a telephone number. In the case of a television broadcast, one or more telephone numbers which the buyer may call to purchase a particular product or service may be displayed on screen. The numbers may be of a call centre, a warehouse, the studio, the station itself or another place from where the consumer's needs may be met.

28. The expression "optical means" in paragraphs 5, 31 and 37 of this Schedule includes titles, written words, graphic and coloured images, logos, and abbreviations of the expression "teleshopping" and also includes a telephone number. The expression "acoustic means" in paragraphs 5, 31 and 37 includes spoken words, jingles or music parts.

29. Any regulations made under the provisions of article 7 of the Consumers Affairs Act, regulating distance selling, where applicable, shall also apply to teleshopping.

30. Teleshopping applies only to television services and not to radio services.

Teleshopping for Non-Teleshopping Television Stations

31. Windows devoted to teleshopping broadcast by a channel not exclusively devoted to teleshopping shall be clearly identified as such by optical and acoustic means and shall be of a minimum uninterrupted duration of 15 minutes.

32. As teleshopping is a form of distance selling, editorial material shall be kept separate from editorial or non-commercial elements.

33. No advertisements may be broadcast within teleshopping windows.

34. Without prejudice to the provisions of paragraph 29, respondents to teleshopping offers shall have the right to return the product within 15 days from the date of sale to the sales agent. During a teleshopping offer the presenter shall, at the beginning of the teleshopping, inform viewers of such right.

35. Teleshopping windows may not be broadcast immediately before or after a programme aimed at children.

Teleshopping for Television Stations exclusively licensed for Teleshopping

36. Stations that are exclusively devoted to teleshopping shall not transmit any other type of programme apart from teleshopping offers.

37. Teleshopping shall be identified by both optical and acoustic means. A specific announcement shall precede and end the teleshopping offers. As for the quality of the signals given, they shall be suited for drawing the audience's attention to the fact that a teleshopping offer is being broadcast.

38. The provisions of this Act, other than regulations made under article 37(2) of this Act, shall apply *mutatis mutandis* to channels exclusively devoted to advertising and teleshopping and television channel exclusively devoted to self-promotion.

39. The provisions of paragraphs, 10, 11, 15 and 16 of this Schedule and regulation 5 of the Broadcasting (Jurisdiction and European Co-operation Regulations (S.L. 350.04) shall not apply to the channels mentioned in paragraph 38 of this Schedule.

The transmit-frequency shall be derived from a crystal-oscillator. If use is made of a synthesizer and/or a phase locked loop system, the transmitter shall be inhibited when synchronisation is absent. The transmitter frequency adjustment control shall not be easily accessible to the user.

### 6b. *Spurious and Harmonic Emissions*

With the transmitter operating at any power up to its specified power level into its designed load impedance, the level of any spurious or harmonic emissions in the frequency range 100KHz to 2GHz, excluding the range  $\pm 300$  KHz relative to the unmodulated carrier frequency, shall not exceed a value of 70dB below the unmodulated carrier power. However in the band 108 - 118 MHz the level of any spurious emissions shall be limited to not more than 77dB below the unmodulated carrier.

### 6c. *Class of Emission, Bandwidth, and Modulation Standards*

#### (i) *Modulation Standards.*

In accordance with the Geneva 84 Plan (Chapter 3), the transmission system used shall be either System 1: monophonic (with maximum frequency deviation  $\pm 75$  KHz) or System 4: Stereophonic pilot tone system (maximum frequency deviation  $\pm 75$  KHz).

(ii) *System 1: Monophonic Transmission.*

The radio-frequency signal consists of a carrier frequency modulated by the sound signal after preemphasis with a maximum frequency deviation of +/- 75KHz.

(iii) *System 4: Stereophonic Transmission.*

The radio-frequency signal consists of a carrier frequency modulated by baseband signal according to the specifications of the pilot-tone system. The maximum frequency deviation is +/-75KHz.

(iv) *Pre-emphasis and low pass filter.*

The transmitter must be provided with a pre-emphasis filter with a time-constant of 50 microseconds, combined with a low-pass filter with an attenuation of at least 30dB at an input modulation frequency of 20 KHz, relative to the level at 1 KHz.

(v) *Permitted subcarriers for the transmission of supplementary information.*

The addition of a sub-carrier on 57 KHz for the transmission of supplementary information using the Radio Data System (RDS) specified in EBU Document Tech. 3244 is considered as being included in the above designation of Emission and permitted Bandwidth. However prior approval must be obtained from the Authority for the use of this system.

6d. *LF input and RF output impedance*

The nominal LF input impedance shall be 600 Ohms balanced to earth within the modulation frequency range 40Hz - 15KHz. The RF output characteristic impedance of the equipment shall be 50 Ohms.

6e. *Transmitter Power*

The transmitter RF output power shall not exceed the value specified in the licence by more than 1dB (26%). The transmitter must incorporate a suitable meter indicating the RF output power to enable routine checks to be made.

## 7. **ARTIFICIAL ANTENNA**

An artificial antenna must be provided for off-air testing and equipment alignment at each station. This should consist of non-reactive non-radiating load of 50 Ohms impedance which can be connected to the output of the transmitter.

## 8. **SAFETY AND WEATHER PROTECTION**

### 8a. *Safety*

(i) A broadcasting Transmission Installation shall be so designed, constructed and installed as to prevent danger arising, either in normal use or under fault conditions, to personnel working on, or externally inspecting the system, or to any other person. Safety should be considered under the following headings:

- personal protection against electric shock;
- personal protection against radiation;
- personal protection against physical injury;
- protection against fire;

- (ii) The system must comply with IEC Specification 215 (Third Edition 1987) relating to Safety Requirements for Radio Transmitting Equipment.

8b. *Weather Protection*

All apparatus and cables exposed to weather, corrosive atmosphere or other adverse conditions shall be so constructed or protected as may be necessary to prevent danger arising from such exposure.

9. **STATION CERTIFICATION**

- 9a. It is the responsibility of the Licensee to ensure that the suitably qualified person has the necessary technical training, knowledge and practical experience so as to enable to certify that the installation and maintenance of the station complies with these technical conditions.
- 9b. Permission for on-air testing prior to the certification in 9c below and commencement of regular service shall be obtained from the Authority.
- 9c. When the installation of equipment is complete the Licensee shall provide evidence of certification, by a suitably qualified person, to the Authority, that the station is ready to commence operation in accordance with these technical conditions.

10. **STATION ACCESS AND PERSONNEL**

- 10a. Only authorised personnel shall have access to the Transmission Equipment for the purposes of adjustment/ maintenance of that equipment.
- 10b. It is the responsibility of the licensee to ensure that all authorised personnel are adequately trained for the functions they are authorised to undertake.

11. **CONNECTION TO THE PUBLIC TELECOMMUNICATIONS NETWORK**

Where studio and transmitting equipment is connected together by circuits provided on the Public Telecommunications Network prior approval by Maltacom plc shall be obtained.

12. **ENVIRONMENTAL CONDITIONS**

Whilst due allowance must be made for likely ambient temperature and humidity variations for the particular location of the transmitter, compliance with the requirements must be achieved over the following minimum ranges:

Ambient Temperature: 5 deg. Cel. to 45 deg. Cel.

Relative Humidity: 0 % to 95 %

13. **POWER SUPPLY**

- 13a. Whilst due allowance must be made for the stability of the actual power supply, compliance with the requirements of this Specification must be achieved for supply voltage variations in the range +6 % to -10 % of the nominal value.
- 13b. Precautions shall be taken to prevent switching or commutation spikes from being radiated or superimposed upon the incoming supply.

**14. DOCUMENTATION**

Accurate operating instructions for the correct use of the transmitter must be kept with it at all times. Similarly, up-to-date circuit diagrams and parts lists must be available to enable proper maintenance. Any modifications to the transmitter must be carried out by qualified personnel, and the details reported to the Authority.

**15. TRANSMITTER LOAD PROTECTION**

The transmitter should be designed such that it will not suffer damage when operated continuously with the RF output connector either open or short-circuited.

**16. SITE IN THE NATIONAL PLAN FOR VHF/FM NATIONWIDE SOUND BROADCASTING RADIO SERVICE**

Transmitters of the VHF/FM Nationwide Sound Broadcasting Radio Service shall be co-sited with the existing television service at Gharghur and shall use a master antenna system.

**17. CHANGES TO CHARACTERISTICS OF FREQUENCY ASSIGNMENTS**

- 17a. The characteristics of an assignment include frequency, station name, effective radiated power, polarisation and radiation pattern of antenna.
- 17b. In the final acts of the "Regional Administrative Conference for the Planning of VHF-FM Sound Broadcasting, Geneva 1984" there are procedures that have to be adhered to if a change in the characteristics of an assignment is envisaged.
- 17c. Some changes to the characteristics could be difficult and take a long time to process in accordance with the above mentioned procedures. The Authority should be advised as early as possible of any changes sought in the characteristics of the assignments so it can advise of any potential problems foreseen. All international co-ordination is the responsibility of the Authority.

**D. SOUND BROADCASTING LICENCE FEES****1. APPLICATION FEES**

1. The Authority may inflict on any person who has violated any of the provisions listed in the first column of this Schedule the corresponding penalty listed

in the Second Column of this Schedule: provided that where the Authority is of the opinion from circumstances of the case that the gravity of the offence is one which warrants the imposition of a higher penalty, the Authority may award a penalty which is not in excess of the amount established in first proviso to article 41(4)(c) and article 16D(3) of this Act.

2. Where any person who is served with a notice in terms of article 41 of this Act elects to pay the penalty without contestation, he shall be liable to pay the penalty indicated in the third column of this Schedule.

3. In the case of a second or subsequent violation of any provision of this Schedule, the penalties listed in the second and third columns of this Schedule shall be increased by twenty per centum for each and every subsequent violation.
